

Paradise Cellular: Verizon Wireless and T-Mobile proposal to install Wireless Communications Facility within Mount Rainier National Park

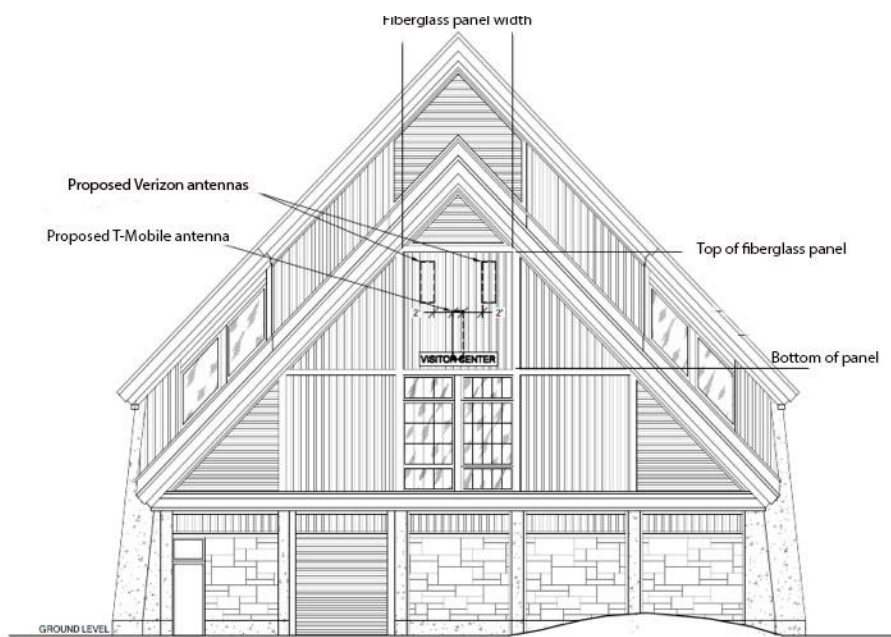

Scoping Period November 28-December 12, 2016

Figure 1. Jackson Visitor Center, Paradise, Mount Rainier National Park showing east entrance and proposed location of concealed antennas located within the east gable end of the attic.

Jackson Visitor Center East

Jackson Visitor Center West

Figure 2. Antennas would be mounted on the interior of the east and west Jackson Visitor Center attics, on fiberglass panels that would replace the existing panels. The exterior of the fiberglass panels would match the existing color and texture of the exterior wood siding.

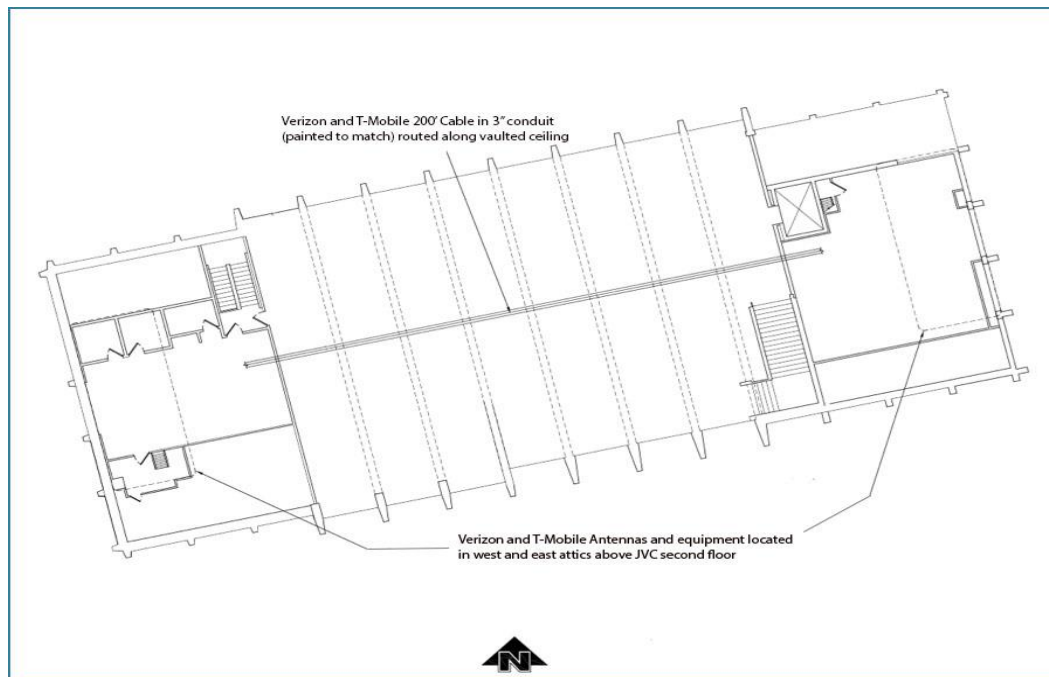

Figure 3. General floor plan of the Jackson Visitor Center, second floor. The proposed installation would be located in the attic.
